Getting Started (Android)

- If you have logged in to any Google account on your phone, select the Google account you'd like to use chat with and click to turn chat on.

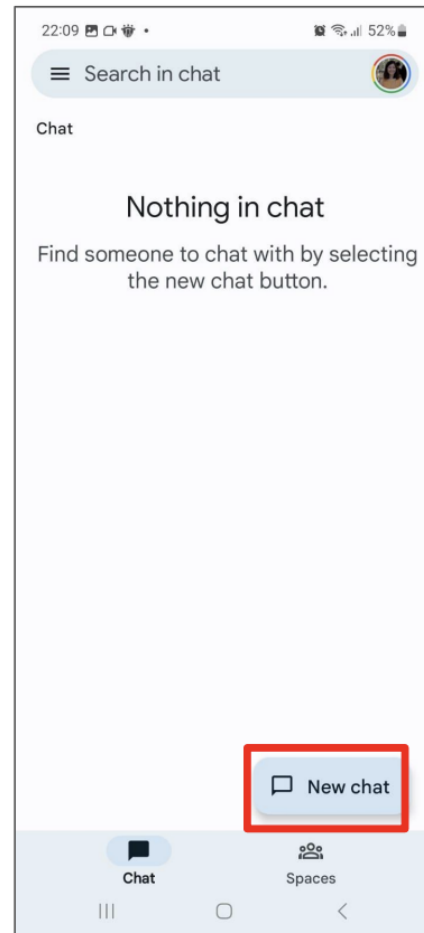

Getting Started (Android)

- If you have not logged in to any Google account on your phone, Google will prompt you to sign in.
- Click on 'Sign in' and log in with your Google email and password.

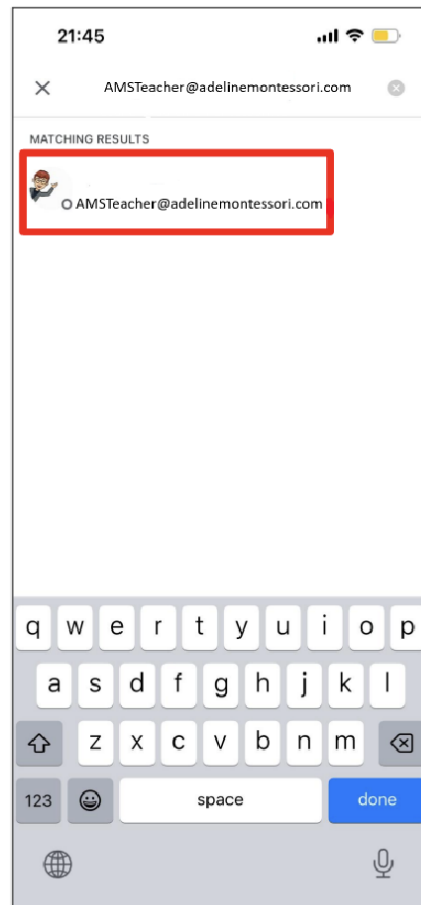

Getting Started (Android)

- You will be redirected to the Google Chat interface, where you can see all existing conversations.
- Click on 'New chat' to start a conversation.

Getting Started (Android)

- Type the teacher's (or other AMS staff member) email address into the search bar to look for her/him.
- Click on the name to start a conversation.
- NOTE: For sending future messages, Google Chat will remember your frequent contacts, so you won't always need to re-enter the email address.

Getting Started (Android)

- You can now type a message, send a picture or documents to your child's teachers.
